Summit III: Register Now!

The Sustainable Economic Development Summit is fast approaching. Among the speakers are representatives from the Just Transitions Fund, a philanthropic group dedicated to helping former coal communities transition to more sustainable economies; Downstream Strategies, an environmental and economic development consulting firm from West Virginia; the Wilton E. Scott Institute for Energy Innovation at Carnegie Mellon University, and Mother Earth Farm, a local family farm that offers composting services in addition to delicious produce.

Save your seat for Summit III, "Reinventing Rural America" today! Go on-line to sustainableindianacounty.org to register you and your guests.

Free & Open to the Public

H.B. Culpeppers
653 Philadelphia St.
Indiana, PA 15701

Task Force Hosts Solar Tour

On October 13, the Task Force will host a tour of solar installations around Indiana County in recognition of the National Solar Tour held by the American Solar Energy Society and Solar United Neighbors. Participants will have the opportunity to ask questions about the financial costs and benefits of solar energy.

During the tour and the informational session following the tour, solar panel owners and representatives from solar installation companies will be available to share details on the solar installation process (see side-bar for details). Vans accompanied by tour-guides will provide transportation to the various installations around Indiana.

All who wish to participate in the tour must pre-register online as space is limited, but the Information Session is open to the public. Both events are free.

Wishing everyone a happy labor day & a great new school year!
